Just the right amount of support.

At the Frances Warde Towers Apartments, we ensure each resident that they will enjoy complete independence. At the same time, we provide them with all the support they need – whether that’s in the form of our Wellness Coordinator, who can help them navigate through any health issues they might be facing, or our Recreation Assistant, who arranges special outings and activities for the residents. This can include anything from trips to the grocery store for snacks to cultural and educational activities in the Hartford area.

The entire staff is also Med-Tech certified, so all of them can administer medication to residents when appropriate. This service is provided at no extra charge to residents.

Dining well – three times a day.

Residents of the Frances Warde Towers Apartments can enjoy delicious fare in our beautifully renovated dining room. That includes breakfast, lunch, and dinner – all part of the living experience here. Our chefs put great care into preparing meals, which are customized for the dietary needs of each resident. As part of our

Recreation program, residents sometimes have the opportunity to dine in a local restaurant together to nicely round out the dining experience.

Financial assistance.

Candidates for residence and their families can rest at ease, knowing that assistance is available from the state of Connecticut for those who qualify. The Frances Warde Towers Apartments is proud to be a part of this program and to offer those who need it comfort, meals, support and a place that they can call home on a long-term basis.
